COMPANY OVERVIEW

Swansons Welding & Fabrication is a manufacturer and fabricator of metal and engineered plastic component parts and full assemblies. We have serviced the food processing and other sanitary industries in Northwest Arkansas since 2009. Under new ownership since 2021, Swansons has positioned itself to significantly expand its manufacturing business, having made key investments in new CNC Machining, Bending, and Laser Cutting equipment along with experienced operators.

We are committed to providing quality parts and continually investing in improvement processes to help serve our customers' needs. Our schedule has been designed to accommodate quick turn-around of completed components, where larger entities may have challenges creating products in a timely manner.
